HS570

Automatic On/Off

**1200 Watts
 Maximum**

**LIGHT
 CONTROL**

**Turns light on
 at dusk and
 off at dawn**

INSTRUCTION GUIDE

Wire-in Photo Light Control HS570
Congratulations on a wise purchase!

INSTALLATION

For the installed light fixture that will be controlled by the lighting control, **disconnect the AC electrical power at the fuse or breaker box.**

1. Locate a 1/2" knockout, on the lighting fixture or junction box, where the lighting control will be mounted. Install the lighting control in the 1/2" knockout, along with the supplied gasket and tighten the locknut.
2. Make the wire connections between the lighting control and light fixture.
Black (hot line) power source wire is connected only to the black wire on the lighting control.
White (neutral or common) power source wire is connected to both the white wire on the lighting control and the white wire on the light fixture.
Red wire on the lighting control is connected to the black wire on the light fixture.
3. Reinstall the light fixture.
4. Restore AC electrical power to the light fixture.

Make sure that the photocell window on the lighting control is not pointed towards any artificial or reflected light sources. This will cause false operation of the light fixture.

Note: The lighting control has a time delay and will take several minutes to turn off when first installed. To test operation, cover the photocell "eye" with black tape. The lighting control will take up to two minutes to operate.

Sunlight operation only.

SPECIFICATIONS

Rating: 120V AC, 60 Hz

Load: 1200 watts max. tungsten, 1200 VA ballast

TROUBLESHOOTING

PROBLEM: Light stays on during daytime.

SUGGESTION: Make sure that the photocell is receiving direct natural light.

PROBLEM: Light not on at night.

SUGGESTION: The photocell may be receiving artificial light. Adjust position or shield the lighting control.

PROBLEM: Light blinks or cycles on and off at night.

SUGGESTION: Light is being reflected into the lighting control. Reposition the photocell.

LIMITED WARRANTY

The product you have purchased is guaranteed against defects in workmanship and materials for the period stated on the package. Warranties implied by law are subject to the same time period limitation. Some states do not allow limitations on how long an implied warranty lasts, so this time limitation may not apply to you.

If the product fails due to a manufacturing defect during normal use, return the product and dated sales receipt to the store where purchased for replacement OR send the product and the dated sales receipt to:

Lamson & Sessions
Attn: LHP Customer Service
25701 Science Park Drive
Cleveland, OH 44122 USA

Not Covered - Batteries, light bulbs, and other expendable items are not covered by this warranty. Repair service, adjustment and calibration due to misuse, abuse or negligence are not covered by this warranty. Unauthorized service or modification of the product or of any furnished components will void this warranty in its entirety. This warranty does not include reimbursement for inconvenience, installation, set-up time, loss of use, postage, unauthorized service, or other products used in conjunction with, but are not supplied by, Lamson & Sessions.

All requests for replacement must include a **dated sales receipt** (copies accepted). LAMSON & SESSIONS IS NOT LIABLE FOR LOST PROFITS, INDIRECT, SPECIAL, EXEMPLARY, INCIDENTAL OR CONSEQUENTIAL DAMAGES INCLUDING WITHOUT LIMITATION ANY SUCH DAMAGES DUE TO IMPROPER WIRING OR MISUSE OF THE PRODUCT. As some states do not allow the exclusion or limitation of incidental or consequential damages, the above limitation and exclusion may not apply to you.
