HEAVY-DUTY PLUG-IN OUTDOOR TIMER

*Ideal for easy & convenient control
of your outdoor lights & appliances.*

- Perfect for holiday and landscape lights, patio and pool lighting, and security lights on your house, garage, driveway or shed.

INSTALL IN MINUTES...NO WIRING NEEDED!

1. **Mount timer** near outlet using hang hole on back of timer. Receptacle should face downward.
2. **Plug timer** into your grounded 110V electrical outlet.
3. **Plug in** the devices you wish to control.
4. **Set timer** to desired setting: Dawn/Dusk, 2 to 8 Hours or On setting.

*Works with Incandescent, Compact
Fluorescent, and Halogen Lighting with
a maximum Power Rating of 1000 Watts.*

Specifications

Maximum Load: 1000 Watts resistive load
1000 Watts incandescent
Rated Voltage: 120 VAC, 60 Hz

NOTE: The National Electrical Code (and most local codes) requires using an In-Use Weatherproof Cover for any outdoor outlets. Carlon recommends using Carlon® In-Use Weatherproof Covers.
